Minutes of meeting held on March 15th 2016

The minutes were accepted as noted with the following adjustment:

Item 3 on these minutes should read: Our thanks go to Frances for all her hard work on the **engagement and basic conditions statements.**

Analysis of Consultation

Following much discussion on the volume of returns from both the public and developers, following the public consultation period, the Chairman concluded that this meeting be kept short and allow the members to spend time reading the returns. At the next meeting we would then be able to consider how to consolidate the issues raised into the existing [draft] plan, ensuring that the revisions link into the NPPF and NNJCS requirements and note the sources of all quotes, statements, observations and suggestions.

Any Other Business

A vote of thanks was recorded to James Putt for all his work, in collating and presenting the volumes of public comments in readable formats for the Group.

Date of next meeting

Provisional date April 4th at 7.30 pm but altered to April 7th at 7.30 pm @ Heritage Centre
