

<b>Health</b>
You claim the doctors practice is NOT operating at full capacity – yet I have had to wait 6 weeks for an appointment with my own doctor (as opposed to anyone who was available).
More Schools. Doctors – we need more surgeries
How more car parking and pedestrian crossing (whilst much needed) will solve the problems with Desborough surgery is a mystery
The many new housing proposals will overwhelm the surgery completely
Doctor's surgery needs to re-organise for the benefit of the patient
The doctor's surgery needs expanding to cope with the very rapid increase in population
Doctors' appointments etc. all now seem to get longer and can only get worse
As Desborough grows there will be a requirement for improved doctors and dental access
